2. Smartphone APP control

2.1. Download and install app

Search for “**Tuya smart**” or “**Smart life**” in the app store; you can also scan the QR code below to download and install the APP.

Please open the app click “**Register**” button to create account while using it in the first time, Log in directly if you already had account.

"Tuya smart" app

or

"Smart life" app

2.2. Pairing Network (5G router is useless)

- 1). Plug the product into an outlet and turn it on.
- 2). Confirm that the indicator light is flashing fast (2 flashes per second).
If the indicator light is not flashing quickly, press and hold the “” key for 5 seconds.
- 3). Link phone with 2.4G wifi network.
- 4). Enter APP, Click “+” —Click “Add Device”.
- 5). Click “Electrical”, find “Plug (BLE+Wi-Fi)”.
- 6). Finish pairing.

2.3. Power On Status

Click single device—Click “setting”—Click “Relay Status”—select status.

Power On Status

OFF: Device shutdown in any status if power source is off.

On: Device turn on in any status if power source is on.

Remember last status: Memorize the status before power off.

Eg: Device is working and power failure happened, device is on while power source recovered.

2.4. Overcharge protection and child lock settings

Click on the device to be set- click “setting”

Turn on overcharge protection:

When it detects that the power is less than 3W for 40 minutes, it will automatically turn off the power to protect the charging device and prevent overcharging.

Child lock :

After it is turned on, the “” key becomes invalid, and the APP control is not affected.

The method of locally releasing the child lock: disconnect the power supply of the device and then connect the power supply, or press “” 4 times to connect.

2.5. Timer Setting

Click single device or group—Click “Timer”—select timer types.

Attention:

1. The timer add max quantities is 30 pcs.
2. “Countdown” “Circulate” “Random” will be stopped if there is power failure (use APP or “” to turn on or off) in current period, timer function recovered in next period.

3. Alexa voice control

Please add device into "Tuya Smart" app ([check details in page 3](#)) and start following steps:

- 1). Open Alexa App
- 2). Click "More" on the bottom of right corner
- 3). Click "Skills & Games"

- 4). Click "Q" on the top of right corner
- 5). Type into "Smart life" and search

- 6). Click "Smart life" skill, follow instruction to finish configuration and start voice control

4. Google Home voice control

Please add device into “Tuya Smart” app ([check details in page 3](#)) and start following steps:

- 1). Open Google Home App
- 2). Click “+” on the top of left corner

- 3). Click “Set up device”

- 4). Click “Works with Google”

- 5). Click “Q” on the top of right corner
- 6). Type into “Smart life” and search
- 7). Click “Smart life” skill, follow instruction to finish configuration and start voice control

5. Attention

1. Please ensure input voltage to be same as requirements from device.
2. The smart plug needs a secure 2.4G WiFi network to work. If your router has 5G network enabled at the same time, please turn off the 5G network first, or modify the SSID to distinguish 2.4G or 5G WiFi.
3. The total power of connected appliances cannot be greater than the maximum power of the smart plug
4. Don't disassemble device if you are not expert, otherwise it will damage it.
